BEST4ENT

Erasmus+ Project n. 2020-1-IT01-KA202-008516

Best practices over the Europe for Education to Entrepreneurship

1ST NEWSLETTER MARCH 2021

About the project

BEST4ENT project, co-funded by the Erasmus+ Programme, seeks to promote an exchange of good practices among training institutions through a course aimed at educators and trainers who deal with vocational training and education of young people.

In the framework of Education in Entrepreneurship the European Commision has adopted the "Agenda 2030" with the aim of providing EU citizens transversal competencies, to improve employability, competitiveness, and growth.

Among them, team working abilities, creative thinking and problem-solving abilities, adaptability, flexibility, initiative ability, in just one word what we call "entrepreneurship" one of the eight key competencies turns out to be the most requested competence in the labor market.

Therefore, we intend to extend and sharpen the skills of trainers and teachers, putting into practice effective ways to improve basic and the key competencies and of specific groups of learners: VET students and young/disadvantaged people.

Next steps - The research

In the following months we will carry out a research about the most demanded skills in the labour market. The research will involve more than 150 companies, HRs responsibles and managers in partner countries in order to identify the most demanded skills in young candidates.

To be part of this project activity, you can fill in the questionnaire here:

https://forms.gle/zMMHp7QjjX8nAy2p8

The questionnaire is anonymous and it takes about 12 minutes to finish it. It's aimed at entrepreneurs, HR managers and company managers and seek to identify the most demanded skills in the labour market.
Thank you for the time you want to dedicate us.
