ALIANZA INTERNACIONAL PARA EL DESARROLLO DE LOS JÓVENES

Through the Erasmus+ program, our association and training center AIDEJOVEN coordinates a mobility consortium for student internships in companies, made up of more than 20 educational centers under the project **"Europe – Social Action in Vocational Training."**

But... What is the Erasmus+ Program?

Erasmus+ is a program of the European Union aimed at supporting education, training, youth, and sport in Europe.

It offers more than 4 million students the opportunity to study and receive training abroad. Mobility opportunities are available in the fields of Vocational Education and Training and Youth (Key Action 1 – KA1).

Here are some examples:.

- **Vocational training internships in companies**
- **Youth exchanges**
- **Mobility for youth workers**
- **Youth participation activities**
- **DiscoverEU program**

The program also offers language learning opportunities to participants undertaking a mobility activity abroad. This support is provided through the Erasmus+ free online language support tool (OLS).

So... How can I participate in the Erasmus+ Program?

If you are a Vocational Training student, whether in **Professional Certificates, Basic Vocational Training, Intermediate, or Higher Level**, you can apply for Erasmus scholarships to complete your Workplace Training Modules (FCTs) abroad.

The requirements are simple:

1. **Be enrolled in an educational center (or have graduated no more than one year ago).**
2. **Have passed all theoretical modules to be eligible for workplace training.**

Sounds great... How do I apply?

Your educational center will publish a call for applications, specifying the dates and duration of the next mobility programs.

They usually take place during your Workplace Training period as part of your FCTs or afterwards, as a graduate.

The duration varies depending on the educational level:

- **Short-term VET mobility: 10 to 89 days.**
- **Higher Education mobility: Minimum of 2 months.**

Once the call is open, you must submit an application and go through a selection process based on your personal project, academic performance, motivation, knowledge of foreign languages, adaptability, and social skills, among other factors.

And most importantly? What does the scholarship include?

For Professional Certificates, Basic Vocational Training, and Intermediate Level participants, the grant covers all expenses related to the mobility: Airfare and general transportation, Accommodation, Meals, nsurance, Cultural activities.

These may be provided in kind (through pre-arranged services) and/or by bank transfer for non-arranged items.

For Higher Vocational Training students, a monthly financial contribution will be provided to cover participation costs, varying depending on the destination country.

Further details will be available once the call is published.
