HE ENTRECOMP DIGCOMP

1st December 2020 to 30th November 2022

DEVELOPMENT OF ENTRECOMP & DIGICOMP FRAMEWORK IN HIGHER EDUCATION

1st Newsletter - April 2021

ABOUT

The project, co-funded by the **Erasmus+ Programme, will last two year and seeks to develop entrepreneurship and digital skills in Higher Education students** through the implementation of a strategic association project. Nowadays, students necessitate to develop new skills demanded by the ever-changing labor market. Thus, **there is an ongoing need for training in entrepreneurship and digital skills** that is not covered in the traditional educational system. In order to consistently add new skills and technical knowledge to the repertoire of the students, we work the **lifelong learning competences** that are essential in the Erasmus + program. On the other hand, we address the necessity to promote awareness on European citizenship and encourage participation.

Regarding **Higher Education teachers**, we give the opportunity to create **networks with colleagues** from other countries, therefore, they can learn and grow professionally and exchange their working methodologies. It is more appropriate to develop entrepreneurship and digital skills, such as: identify opportunities at different levels (EntreComp 1.1) **increase creativity with perspectives from other worldviews and societies**, (EntreComp 1.2) mobilize other, **grow your network** of friends and contacts, (EntreComp 2.5) or **face uncertainty, ambiguity and risks,** (EntreComp 3.2) in an **international environment** with young people from other countries.

Among the actions that will be carried out:

- Developing entrepreneurial and digital skills in European Higher Education students.
- Train Higher Education teachers and trainers in the use of EntreComp and DigComp.
- Train Higher Education teachers and trainers on the organization of HACKATHON events as tools to promote innovation and entrepreneurship.
- Promote the participation of Higher Education students in a project at European level.
- Promote cooperation between the public administration, associations, companies and educational centers at national and European level.
- Share good practices developed between partners and participating countries.
- Promote the development of the prototypes created by connecting the creators with other possible sources of financing.

KICK-OFF MEETING

The kick off-meeting of HE-ENTREDIGComp was held on 7th December 2020 by videoconference with the participation of all the partners; OSTİM VAKFI, Aile, Çalışma ve Sosyal Hizmetler İl Müdürlüğü, Polaris S.r.l., Hellenic Open University, UDIMA and Aidejoven.

1. Presentation of the project, including the description of objectives, activities, results by OSTİM VAKFI.
2. Presentation of financial rules of the project by ANKARA AÇSHM.
3. Presentation of the first steps for the implementation of the GUIDE 1 by UDIMA -UNIVERSIDAD A DISTANCIA DE MADRID SA.
4. Presentation of the first steps for the implementation of the GUIDE 2 by AIDEJOVEN.
5. Presentation of the chronogram fot the following months by OSTİM VAKFI.
6. Discussion of the possible risks of the project and the strategy to prevent it.
7. Discussion of the dissemination plan, logo, poster and brochure.
8. Preparation of the next steps.

NEXT STEPS

In the following months, we will implement a **training course for higher education teachers.** From the results of the course, there will be identified the possible challenges and designed support strategies for the realization of future **HACKATHONES.**
On the other hand, the first part of the **GUIDE** will be presented and, according to the established agenda, the preparation of the second part will be agreed.
This guide will include the material to use during the first training activity in Greece. It will contain theoretical material on the European Reference Frameworks in Entrepreneurship and Digital Competences (ENTRECOMP and DIGCOMP), and will offer tools and techniques to apply the methodologies in Higher Education competences. It will include **good practices shared by teachers on innovative methodologies in Higher Education** and also instructions on **planning technology-based projects. Moreover, the teachers will design a specific project** for the educational center on the application of ENTRECOMP and DIGCOMP methodologies in Higher Education subjects, that will be part of the Guide.
